Captron

- A system to manage and execute financial entities.
- ReactJS, Redux, D3 chart, Golden Layout.

The screenshot displays the Captron application interface, which is divided into several sections:

- TRANSACTIONS**: A table listing transactions with columns for ID, APP..., REJE..., STATE, COMPLIANCE CHE..., BRE..., and TRADE TYPE. It includes a '+ NEW' button and a 'Filter on instrument' search bar.
- CASH FLOW STRUCTURES**: A table with columns for TYPE, BUSINESS DAY CONVENTI..., and HOLIDAY CALENDAR. It lists Redemption, Principal, and Coupon types.
- CASH FLOWS**: A table with columns for SPOT DATE, SETTLEMENT DATE, and TYPE. It lists dates from 2022-08-01 to 2018-08-08 and types like Redemption, Principal, Premium, and Accrued Interest.
- TRADE ENTRY**: A form for entering trade details, including fields for Instrument, Book, Gross Amount, Net Amount, Total Fees & Taxes, and Trader. It also has tabs for MAIN and FEES.

The screenshot displays the Captron application interface with a 'Filter Fixings' dialog box open. The dialog box has a 'FILTER' section with the following fields:

- Transaction id: [Text input]
- Processed: [Pick one dropdown]
- Processed from: [Text input]
- Processed to: [Text input]
- Fixing type: [Pick one dropdown]
- Instrument: [Pick one dropdown]
- Instrument type: [Pick one dropdown]
- Book: [Pick one dropdown]
- Counterparty: [Pick one dropdown]
- Currency: [Pick one dropdown]

At the bottom of the dialog box, there are buttons for 'FILTER', 'CLEAR FILTER', and 'CANCEL'. The background shows the application's sidebar with various navigation options like 'REAL-TIME M...', 'ORDER MAN...', 'COMPLIANCE', 'PORTFOLIO M...', 'Transaction m...', 'Fixing manage...', 'Cash Manager', 'STATIC DATA', 'Instruments', 'Legal entities', 'Corporate actions', 'Investment Strategies', 'Cash Accounts & SSIs', 'MARKET DATA', 'SYSTEM ADMIN', and 'LOGOUT'. The user is logged in as 'testy'.

Meeting with Mr. John Snow (Opening) Jan 16 2018, 8:37 AM

End session Add dictation

Case ID: BC-7767 | Note: Mr. John Show. If you know him you definitely have heard about Game of Thrones, right. I love that movie, but never watch any episode sadly. Let see if I can watch it in the near future.

You:

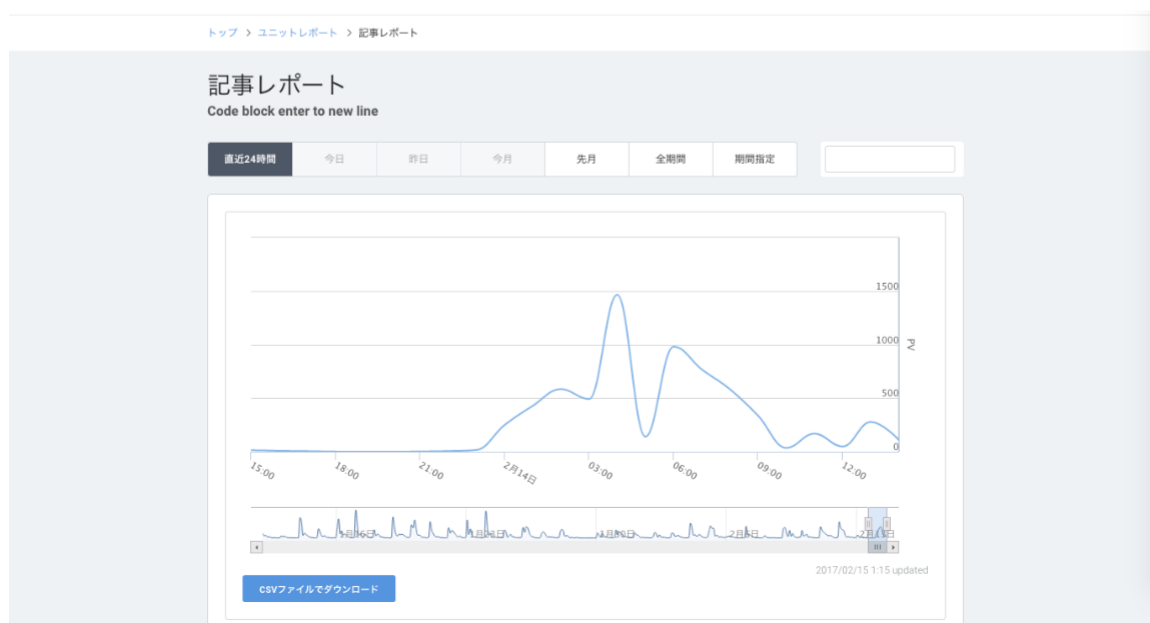

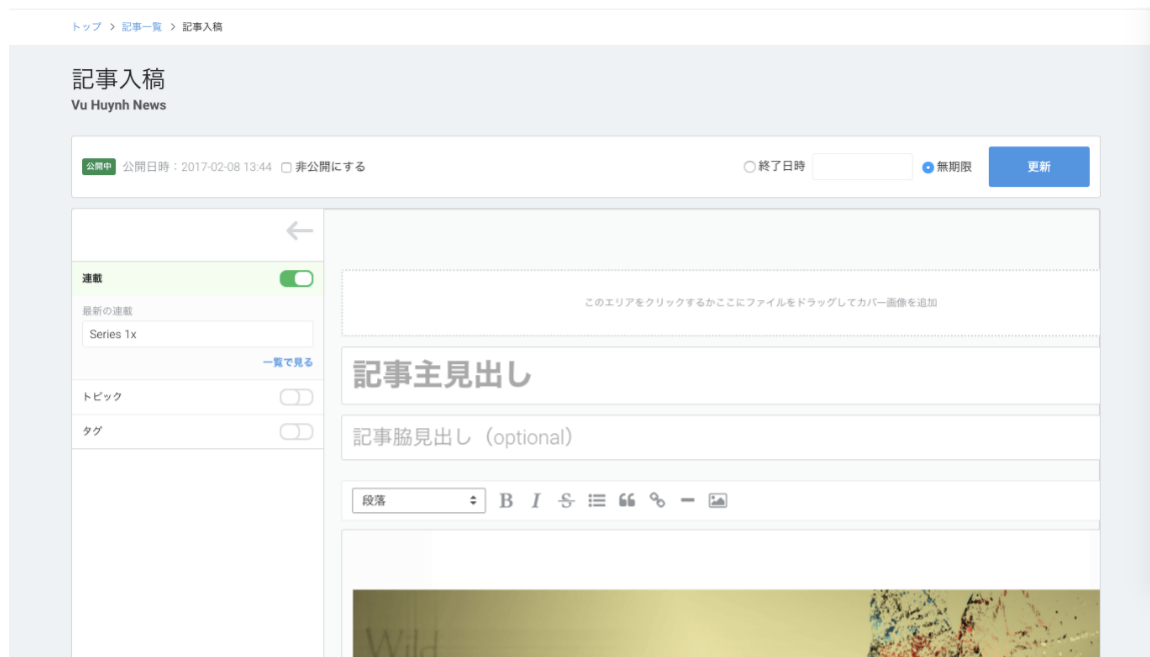

Nam Nguyen:

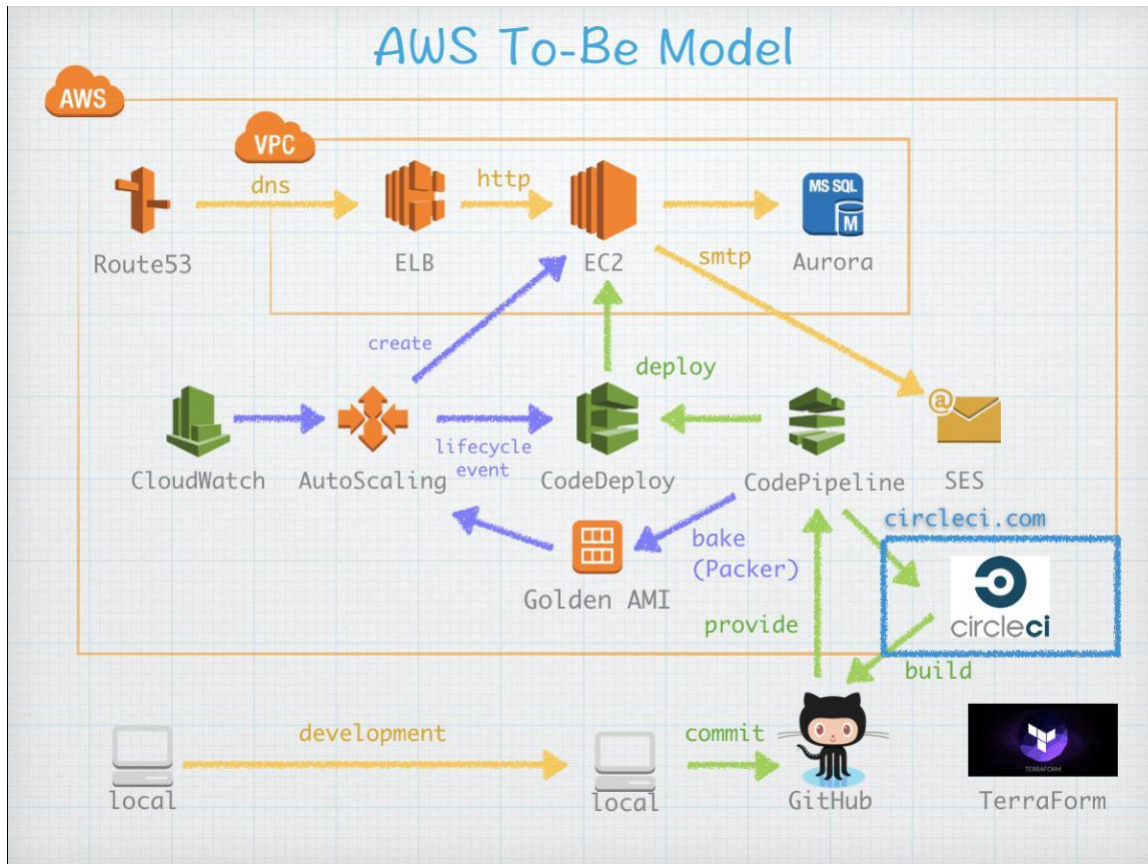

Nor. CMS system

- A complex CMS system to publish news, which contains multiple services running separately.
- Golang, Oracle, Elastic Search. ReactJS, DraftJS, IndexedDB.

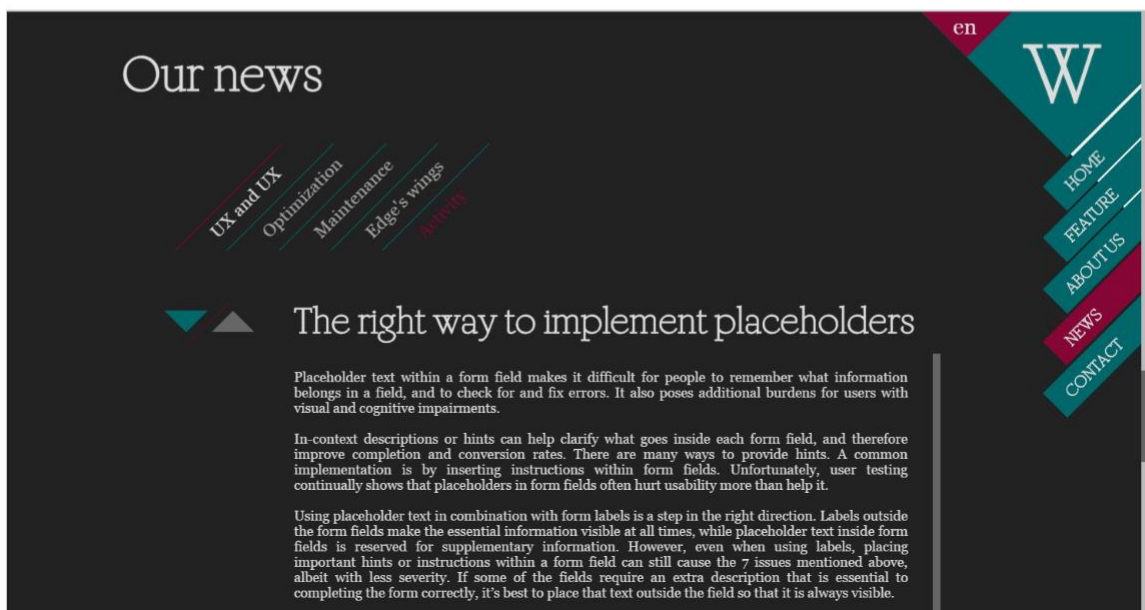

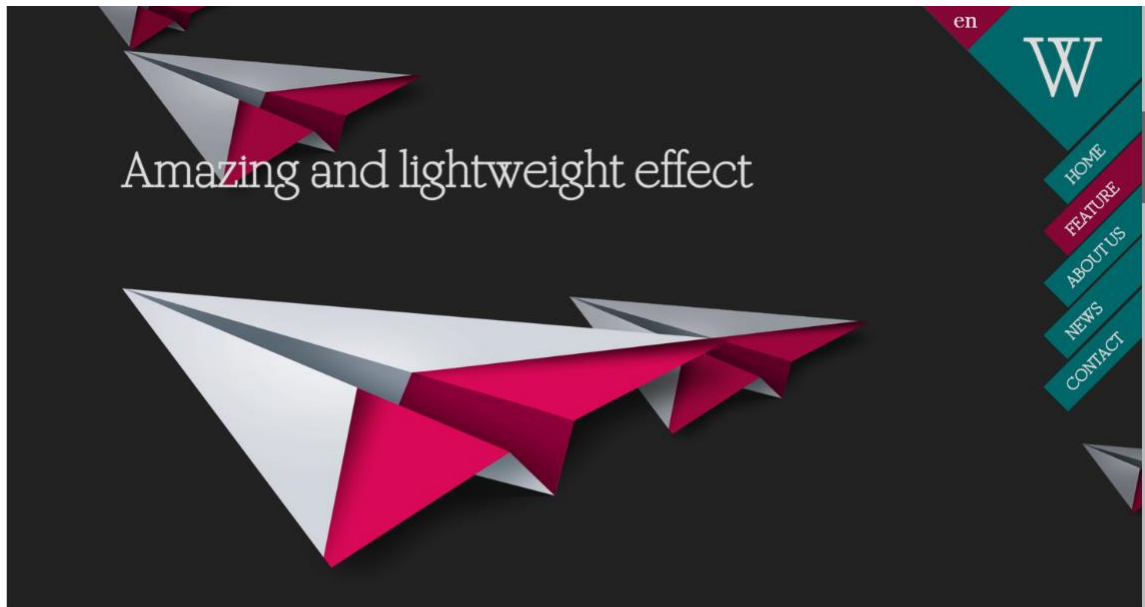

Nor. AWS migration

- Service migration to AWS, which requires provisioning, load balancing, CI/CD, image processing integration.
- Ansible, Terraform, CircleCI, Jenkins, Cloudinary, AWS Services.

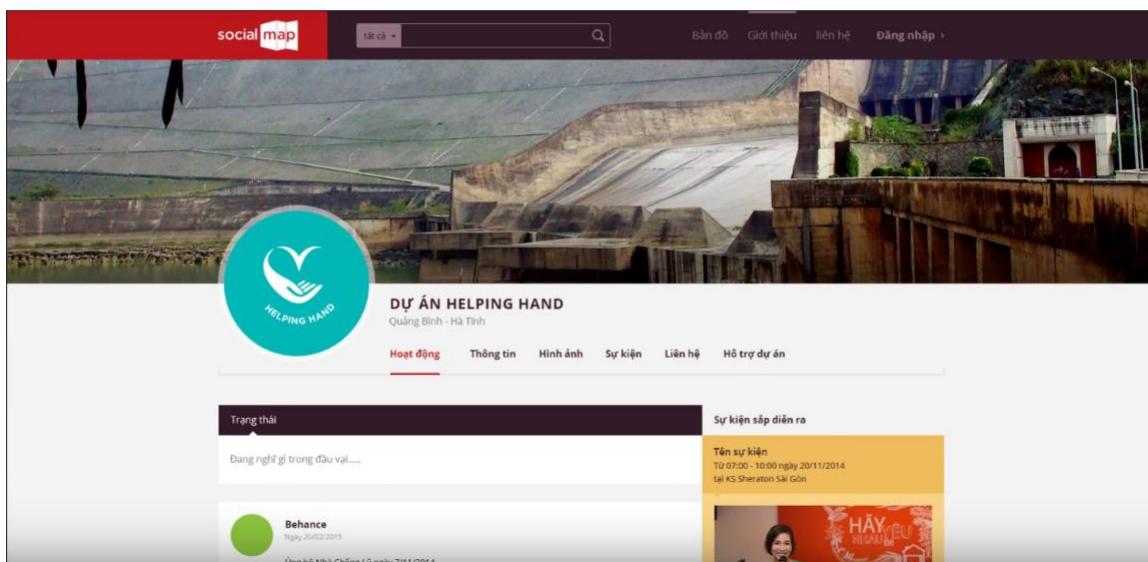

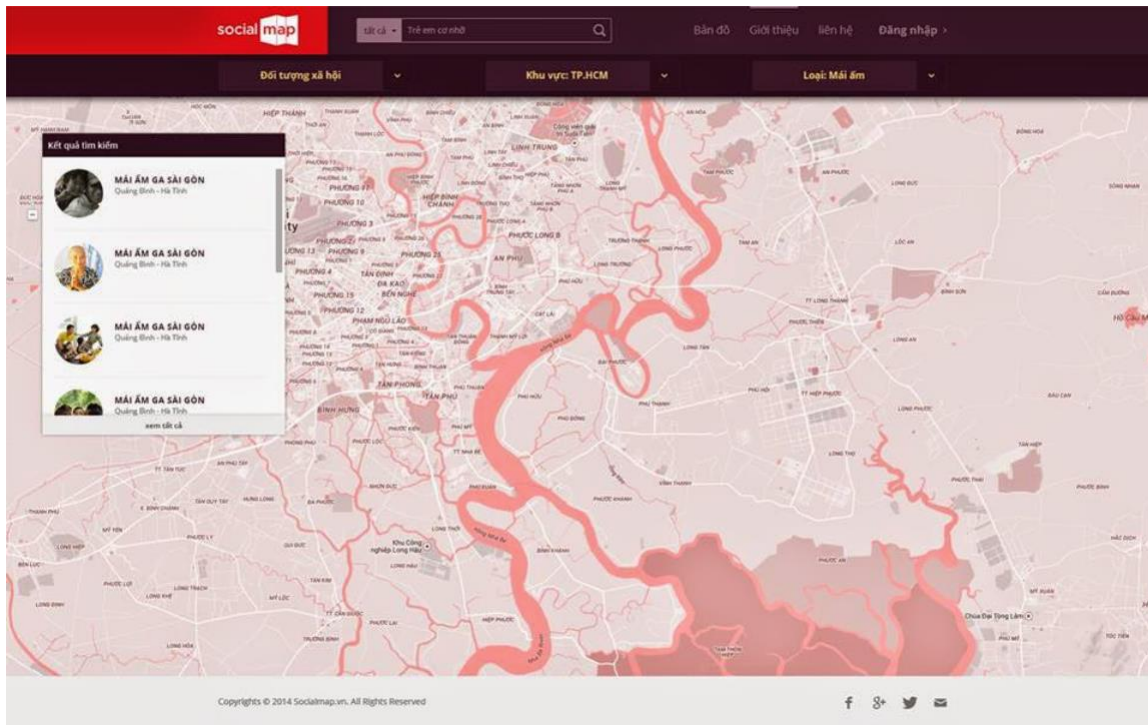

WoS landing page

- Unique designing parallax landing page with a simple CMS system for publishing company's news.
- NodeJS, MongoDB. jQuery.

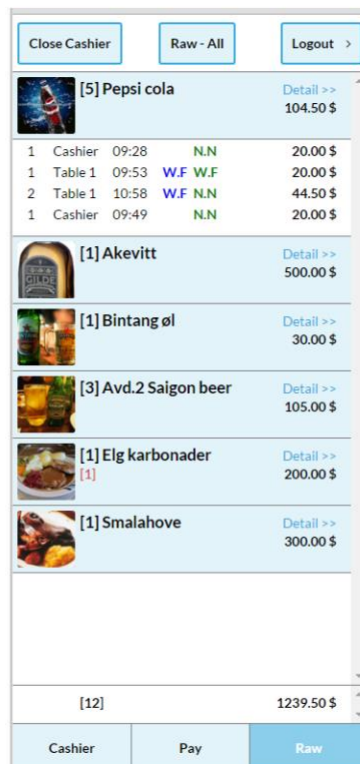

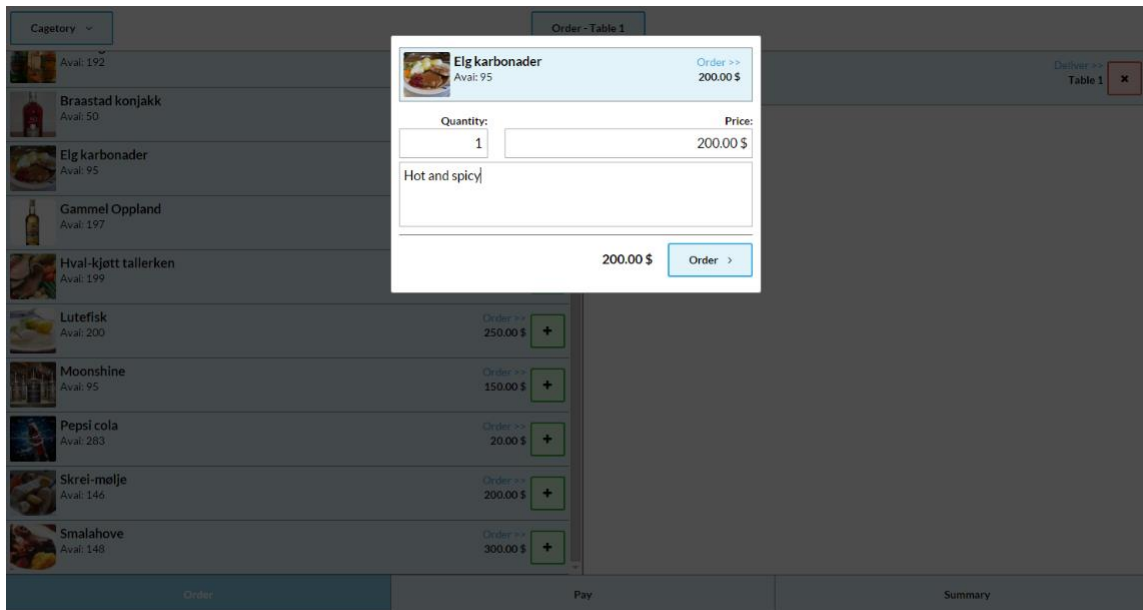

Liti Social Map

- Social network for charity projects using custom google map with location-based presentation.
- Golang, MongoDB. ReactJS, Fluxible, Socket.io, Bootstrap.

Kvernhirde restaurant management

- Restaurant solution for communication and management between staffs. Super responsive, touch-based, POS intergrating.
- ASP.NET, EXT.NET, Entity Framework. jQuery, AngularJS, SenchaJS.

OANDA top trader contest

- A competition contest for traders can come and try to get prizes with their trading skills. Huge system with complex data logic on trading transactions and graph.
- ASP.NET, Entity Framework, SignalR. jQuery, Bootstrap.
